EXPERIENCE

StayTuned LLP *Dec 2025 - Present*

Internal Design System | Mar 2026 – Present

Tech: TypeScript, HTML, CSS, Playwright, NPM

- ▶ Developed reusable **UI components** for the company's internal design system to ensure consistent design across products.
- ▶ Implemented and validated component **interaction states** (hover, active, disabled, focus) for reliable UI behaviour.
- ▶ Automated component testing using *Playwright* and built custom workflows to streamline the UI development cycle.

KarmoDharmo.com | Feb 2026 – Mar 2026

Tech: TypeScript, React, Tailwind, Firebase, Internal UI Library

- ▶ Contributed to a **DDD-based** temple digitization platform with **User, Admin, and Partner** (temple trustee) panels.
- ▶ Implemented the Temple Events and Seva Registration modules for the Partner panel and User panel.
- ▶ Built as **Progressive Web App** enabling users to install and access the platform as a web app on their devices

PERSONAL PROJECTS

SOUNotes

Tech: Next.js, Tailwind CSS, Rehype, Remark, PWA

- ▶ Built a **Next.js-based academic material platform** for BCA students to access notes, download PDFs, and view the academic calendar.
- ▶ Implemented **Markdown-based content rendering** using Rehype/Remark for structured study materials.
- ▶ Added **PWA support** enabling students to install as a web app.
- ▶ Achieved **50K+ page views**, used by **95%+ BCA students**, and selected for **Project Fair 2024**.

GitFinder

Tech: HTML, CSS, JavaScript, GitHub API

- ▶ Built a web application to **fetch and display GitHub user profiles and repository statistics** using the GitHub API.
- ▶ Displayed key metrics including **repositories, followers, stars, and profile metadata** through an interactive UI.
- ▶ Implemented **dynamic client-side rendering** to update data without page reloads.
